The Donalda Club - Another phase of work recently completed

The Dalton Company has enjoyed an ongoing relationship with the Donalda Club that has included project and construction management services on multiple assignments over several years.

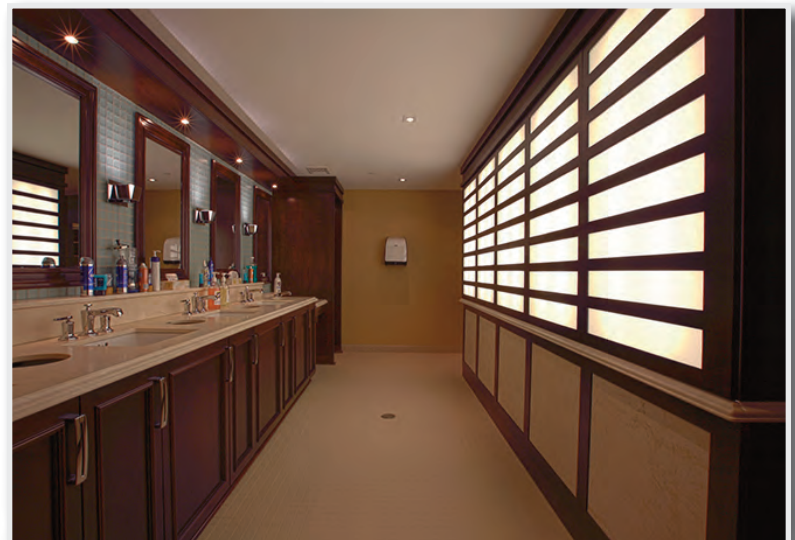

We are pleased to report the completion of our most recent endeavor which included the total renovation to the men's locker room and a new state of the art Golf Academy.

The President of the club announced in their most recent newsletter that the facilities were completed on time and on budget with impressive quality of workmanship.

He also personally congratulated the General Manager Charles Powell, Architect Peter Hossack, Interior designer Gary Nicholls and the Dalton Company on an exceptional job.

At present we have commenced a further phase of work that includes expansion and renovation to the fitness center.

We collectively look forward to a comparable result.
