## Little Trinity Milestone....

On June 4, 2013 the temporary shoring which was installed to hold the historically significant masonry façade in place, while the demolition and alterations to the existing building progressed, was removed.

This marks an important milestone achievement for the project. The redevelopment of existing townhomes can now proceed without obstruction from the shoring.

The ongoing support of Little Trinity and DTAH Architects and its sub consultants have been instrumental in meeting this milestone.

The Dalton team led by Len & Vic is looking forward to a successful completion of this project.
