UCC Boarding House Alterations

The project team's experience at Upper Canada College continues to make a difference as the College aims to enhance the Boarding Program to comfortably accommodate and educate boys from across Canada and around the globe.

The student's experience at UCC is more profound due to the diversity that boarding provides and the perspective of boys from more than 24 countries.

Our goal is to help UCC to realize their vision by providing the leadership and professional skills to achieve their "Definition of Success". Work has commenced on site and the photos of Seaton House captures the beginning. We are moving forward with implementing the alterations to Seaton House.

These upgrades to the facilities will transform the boarding environment which will better meet the needs of students in the classroom, on the playing fields, and socially.

We look forward to sharing our progress with the UCC community as the project proceeds.
